

Pharmacist-Led Dispensary Opens in Ewing with Cannabis Help Desk

Canna Remedies Celebrates Grand Opening of Ewing Dispensary, Aiming to Serve Mercer County

Ewing, NJ — Canna Remedies, a licensed provider of adult-use cannabis, has proudly celebrated the grand opening of its new dispensary in Ewing this week. The facility is set to serve all of Mercer County, including Trenton and the surrounding areas.

Local Dignitaries and Community Leaders Join Celebration

The grand opening event was marked by the presence of several local officials and dignitaries, including Ewing Mayor Bert Steinmann and Council President Kevin Baxter. Their participation underscored the significance of this new addition to the community.

“We are thrilled to open our doors here in Ewing Township,” said Dr. Monica Werkheiser, the pharmacist and cannabis advocate leading Canna Remedies. A Rutgers University alumna, Werkheiser emphasized the organization’s commitment to education and wellness. “Our journey has been one of learning, growing, and embracing new possibilities. Now, with Canna Remedies, we have the opportunity to educate, offer curated experiences, and elevate the standards of wellness through cannabis.”

Innovative Features and Modern Design

Canna Remedies is distinguished by its innovative approach to customer service, featuring a unique cannabis help desk. This dedicated space is designed to facilitate detailed conversations and provide expert guidance separate from the sales counter, ensuring a personalized experience for every visitor.

The new dispensary, covering 7,244 square feet, has been designed as a modern wellness retreat. It was constructed by V.J. Scozzari & Sons of Pennington and designed by RGW Architecture, reflecting the company’s commitment to creating a welcoming and educational environment.

A Family-Owned Vision

As a friends- and family-owned business, Canna Remedies is led by a team dedicated to integrating cannabis into wellness practices while maintaining a strong community focus. The dispensary aims to set new standards for cannabis retail and education in the region.
