

THC Edibles Recalled Over Unlisted Ingredients, Reactions

THC Edibles Recalled in Missouri Following Adverse Health Reaction

Kansas City, Mo. — Thousands of THC-infused edibles, including gummies, chocolates, and drinks, have been recalled in Missouri after an adverse health reaction was reported and unlisted ingredients were discovered.

The Missouri Division of Cannabis Regulation (MDCR) announced the recall, which involves products manufactured by Noah's Arc Foundation. Officials urge consumers who purchased these products to cease using them immediately and report any health concerns.

Details of the Recall

The recall affects a wide range of THC edibles sold under the Noah's Arc brand. These products were pulled from shelves after a consumer reported an adverse health reaction, prompting further investigation by MDCR.

Key Findings

Unlisted Ingredients: The recalled items contain coloring agents that were not disclosed on the compliance labels, violating state regulations.

Product Types Affected: Gummies, chocolates, and THC-infused drinks.

For a complete list of the recalled products, consumers can visit the Missouri Division of Cannabis Regulation's website.

Health Risks and Precautions

Health officials emphasize the importance of discontinuing use of the recalled products immediately. Individuals who experience any adverse reactions should seek medical attention promptly.

Common Adverse Reactions

Potential symptoms of adverse reactions to THC edibles may include:

Nausea or vomiting

Dizziness or disorientation

Allergic reactions such as skin irritation or respiratory issues

Anyone who suspects they are experiencing symptoms linked to the recalled products is encouraged to report incidents to the MDCR.

Steps for Consumers

If you have purchased any of the recalled Noah's Arc products, take the following actions:

Stop Usage Immediately: Do not consume the affected products under any circumstances.

Dispose of Products Safely: Follow local guidelines for disposing of cannabis products to prevent accidental consumption.

Report Incidents: Notify MDCR of any adverse reactions or concerns using the official reporting link on their website.

Regulatory Implications

This recall underscores the importance of strict compliance with labeling and safety standards in the cannabis industry. The discovery of unlisted ingredients highlights potential lapses in quality control and regulatory oversight.

State Response

The MDCR has pledged to take additional measures to ensure product safety, including:

Increased inspections of cannabis manufacturing facilities.

Stricter enforcement of labeling requirements.

Enhanced communication with consumers regarding product recalls.

Noah's Arc Foundation Responds

As of now, Noah's Arc Foundation has not issued a public statement regarding the recall. The company is expected to cooperate with regulatory authorities to address the issue and ensure compliance moving forward.

Consumer Safety in the Cannabis Market

This incident serves as a reminder for consumers to remain vigilant when purchasing and consuming cannabis products. Proper labeling is essential for transparency and safety, and deviations from compliance can pose serious health risks.

Tips for Safer Cannabis Consumption

Check Labels: Always review compliance labels for ingredient lists and potency information.

Purchase from Licensed Retailers: Buy products from reputable dispensaries that adhere to state regulations.

Start with Small Doses: Particularly for new users, begin with a low dose to minimize the risk of adverse effects.

The recall of Noah's Arc THC edibles has sparked concerns about product safety and regulatory compliance in Missouri's cannabis industry. Consumers are urged to stop using the affected products and report any health issues promptly.

This incident highlights the need for continued vigilance and transparency to protect public health and maintain trust in the growing legal cannabis market.
